PROJECTS

A Full fledge chat application

Apr 2021 - May 2021

<https://github.com/dino-bot241/CHATS-APP-ON-SPECIALS.git>

I have build a complete chat application with the help of using reacts, socket.io, and express.js as backend technology, and for the frontend, I used simple HTML, CSS, and Bootstrap.

Authentication System.

Mar 2021 - Apr 2021

<https://github.com/dino-bot241/authentication--on--firebase.git>

Authentication system by using the react.js, firebase.

Complete clone of Spotify applications

Apr 2021 - Present

<https://github.com/dino-bot241/Spotify-Clone.git>

I build a complete clone of Spotify, by using react.js, Spotify API, Material-UI (for frontend), and right now I'm working on its complete development which includes (searching of songs, complete functionality of Spotify app).
